Introduction

1. Responsibility for the management of municipal emergency operations rests with the local authority (Mayor/Council).

This all hazards emergency plan guides the emergency management actions of the municipality and describes activities and arrangements to deal with any emergency situation.

Should municipal resources be insufficient to deal with the emergency, assistance may be requested from municipal governments and other organizations through mutual aid agreements or memorandums of understanding and from the Provincial Government through the PEI Emergency Measures Organization.

2. There are certain fundamental principles concerning emergency management in Canada which are recognized, some of these principles are as follows:
 - a. that responsibilities for meeting most emergencies normally rests with those directly affected, but where the capacity to do so is inadequate and government action is required, the sequence of responsibility would normally start with the local government, move to the provincial government and finally to the federal government if necessary;
 - b. that operational responsibility for managing emergencies should remain at the lowest level at which it is possible to effectively manage the emergency situation; and
 - c. that responsibility to respond to emergencies carries a parallel responsibility to plan and prepare for them.

By extension of these principles it is logical that municipal governments should cooperate and provide emergency assistance to one another in emergency situations, before calling on the province for assistance.

Purpose

3. The purpose of this Joint plan is to outline the procedures to be followed by local authority in order to provide a prompt and coordinated response to emergencies.

Authority

4. This Joint plan is issued by Council, under the authority of:
 - a. The Emergency Measures Act.
 - b. The Municipal Government Act.
 - c. The rural municipality of Alexandra, Municipal Emergency Management Program bylaw #2019-01 and the rural municipality of Hazelbrook, Municipal Emergency Management Program bylaw #2020-01.

6. This plan may be implemented in part or in full when no state of emergency exists:

- a. by the Council (S);
- b. by the Mayor (S); or
- c. by the Municipal Emergency Coordinator (S) (subject to immediate report to a member of Council (S)).

This plan shall be implemented:

- a. on a declaration of a state of local emergency by Council (s); or
- b. on a declaration of a state of provincial emergency by the Minister responsible for the PEI Emergency Measures Organization, in respect to all, or any part of, the municipality(ies).

Direction and Control

7. Responsibility for the management of municipal emergency operations rests with the local authority. Councils have the authority for decision making during an emergency, with operational decisions being delegated to the Municipal Emergency Coordinator. Councils maintain responsibility for ensuring the continuity of municipal business operations outside of the emergency.
8. The Joint Municipal Emergency Coordinators is responsible for coordinating the efficient emergency response in the municipality(ies) on behalf of the Mayor/Council. He/she may activate the Emergency Operations Center staff partially or fully, depending on the nature and magnitude of the emergency.
9. If there is a designated emergency site it will be under the direction of the Incident Commander. If there is no Incident Commander in place, he/she will be designated by the local authority.
10. The Joint Emergency Operations Centre will be located at the Alexandra community center 1197 Pownal Road, Alexandra PE. The alternate to the EOC is located at Pownal Sports center, 145 Pownal road, Pownal PE.
11. PEI Emergency Measures Organization - The local authority may be advised and assisted by PEI EMO staff and representatives of provincial departments and agencies in order to provide a coordinated municipal/provincial response.
12. Emergency roles and responsibilities of Municipal Council, the Municipal Emergency Coordinator and the Emergency Operations Centre Team are listed in the Appendices.

Requests for Assistance

13. Requests for provincial assistance, if required, will be made to the PEI Emergency Measures Organization (PEI EMO) by the person with authority to make such requests on behalf of the municipality. Requests may be verbal initially but must be confirmed in writing.

PEI EMO is responsible for coordinating the interface with the municipalities. When the emergency clearly impacts on areas of provincial jurisdiction (e.g. any emergency in an area that is unincorporated, emergencies on provincial lands) or in a provincially declared emergency, the province may assume responsibility for direction and coordination of the emergency. Municipal operations will remain under the authority of the municipal jurisdiction but may be coordinated provincially.

Notification

14. When an emergency occurs, or is imminent, the person or agency becoming aware of the situation will be responsible for alerting the Joint Municipal Emergency Coordinator who will in turn alert Mayor/Council.

The Municipal Emergency Coordinator will maintain a current EOC contact list and will instruct the designated person, **Deputy Emergency Operation Center Manager**, to start notifying individuals on the list if the EOC is being activated.

Expenditures

15. The Council (s) may authorize the Chief Administrative Officer (CAO) to incur any liabilities that the Chief Administrative Officer considers necessary to assist in the emergency response or recovery which is beyond current budget allowances. The CAO is responsible for keeping records of the expenditures made and the equipment used in implementing the Municipal Emergency Management Program or responding to a declared emergency.

Review and Amendment

16. This plan will be reviewed **annually in January** by the Municipal Emergency Coordinator, who will be responsible for the preparation of amendments, as required, and for submission to PEI EMO for review.

Joint Emergency Operations Center

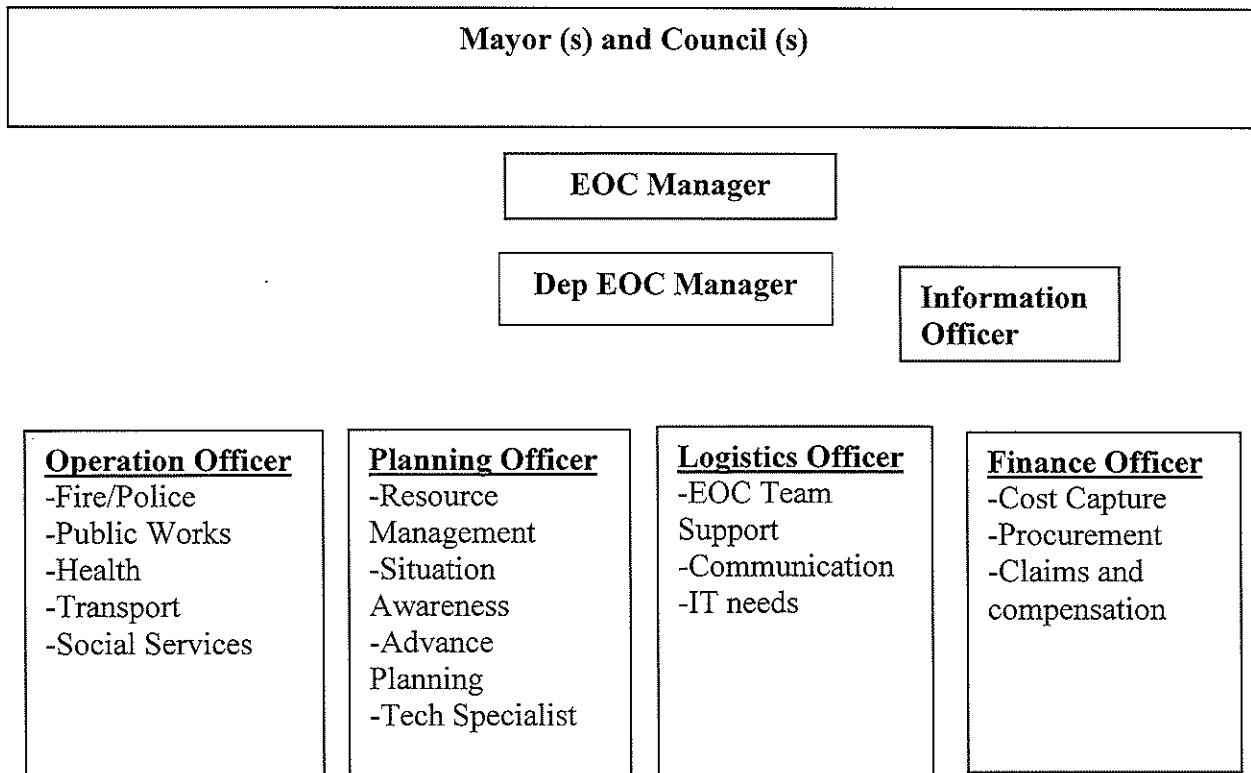

17. The Joint Emergency Operations Centre (JEOC) team is comprised of municipal representatives and external agencies, under the direction of the Municipal Emergency Coordinator (JEOC Manager). The JEOC team is responsible for making operational decisions to support and assist the Incident Commander, first responders and municipality emergency requirements. When the JEOC is activated it should be staffed to a level that matches the needs of the incident. The size and composition of the JEOC may vary according to the requirements of the circumstances. It should be noted that while it may seem appropriate to have the CAO or Mayor run the JEOC, ideally they should be focused on maintaining and managing regular business of the Municipality along with being the lead spokesperson for the municipality. During an emergency, it will be difficult for a CAO or Mayor to do all these tasks.

The JEOC team is led by the JEOC Manager who is responsible for overall emergency policy and coordination, public information and media relations, agency liaison, and proper risk management procedures, through the joint efforts of local government agencies and private organizations. Roles and responsibilities for the EOC positions can be found in the Appendices.

When using the recommended Incident Command System (ICS) in the JEOC, there are four management functions required to manage an emergency. The EOC Manager is always responsible for these four functions unless the nature and size of the emergency warrants one or more of these functions being filled.

1. **Operations** – Responsible for coordinating all jurisdictional operations in support of the emergency response through implementation of the EOC Action Plan.
2. **Planning** – Responsible for collecting, evaluating, and disseminating information, developing the EOC Action Plan and tracking all resources, and maintaining all EOC documentation.
3. **Logistics** – Responsible for providing facilities, services, personnel, equipment and materials.
4. **Finance / Administration** – Responsible for financial activities and other administrative aspects

Exercise Work Plan

18. Exercises are an essential component of an emergency management program and have 3 main functions:
- **Validation** - To validate plans, protocols, and procedures and demonstrate resolve to prepare for emergencies
 - **Training** - To develop staff competencies, to give staff practice in carrying out their roles in the plans, and to assess and improve performance.
 - **Testing** - To test well-established procedures and reveal gaps that may exist.

Exercises enhance teamwork and encourage the interaction and cooperation that is needed when a real emergency occurs. But it's not enough to just "have an exercise". You need to determine what needs to be tested, in what way, and how often – always keeping in mind that there are time, budget, and other resource constraints. That's why you need an exercise work plan.

A well designed and executed exercise work plan can make you and your emergency management team "ready to go". At the same time, your emergency plan is tested to see if it works in a full scale disaster.

In accordance to subsection 145(3) of the Act, the Municipal Emergency Management Program for the municipality shall include an exercise work plan **See Appendix I** that, at a minimum, provides for:

- An annual discussion-based exercise to be commenced by not later than one year after the approval of the program by the PEI Emergency Measures Organization; and
- An operational-based exercise, which includes participants by the appropriate response agencies referred to in the Municipal Emergency Management Program, to be undertaken by the municipality once every five years, commencing not later than five years after the approval of the Municipal Emergency Management Program by the PEI Emergency Measures Organization.
